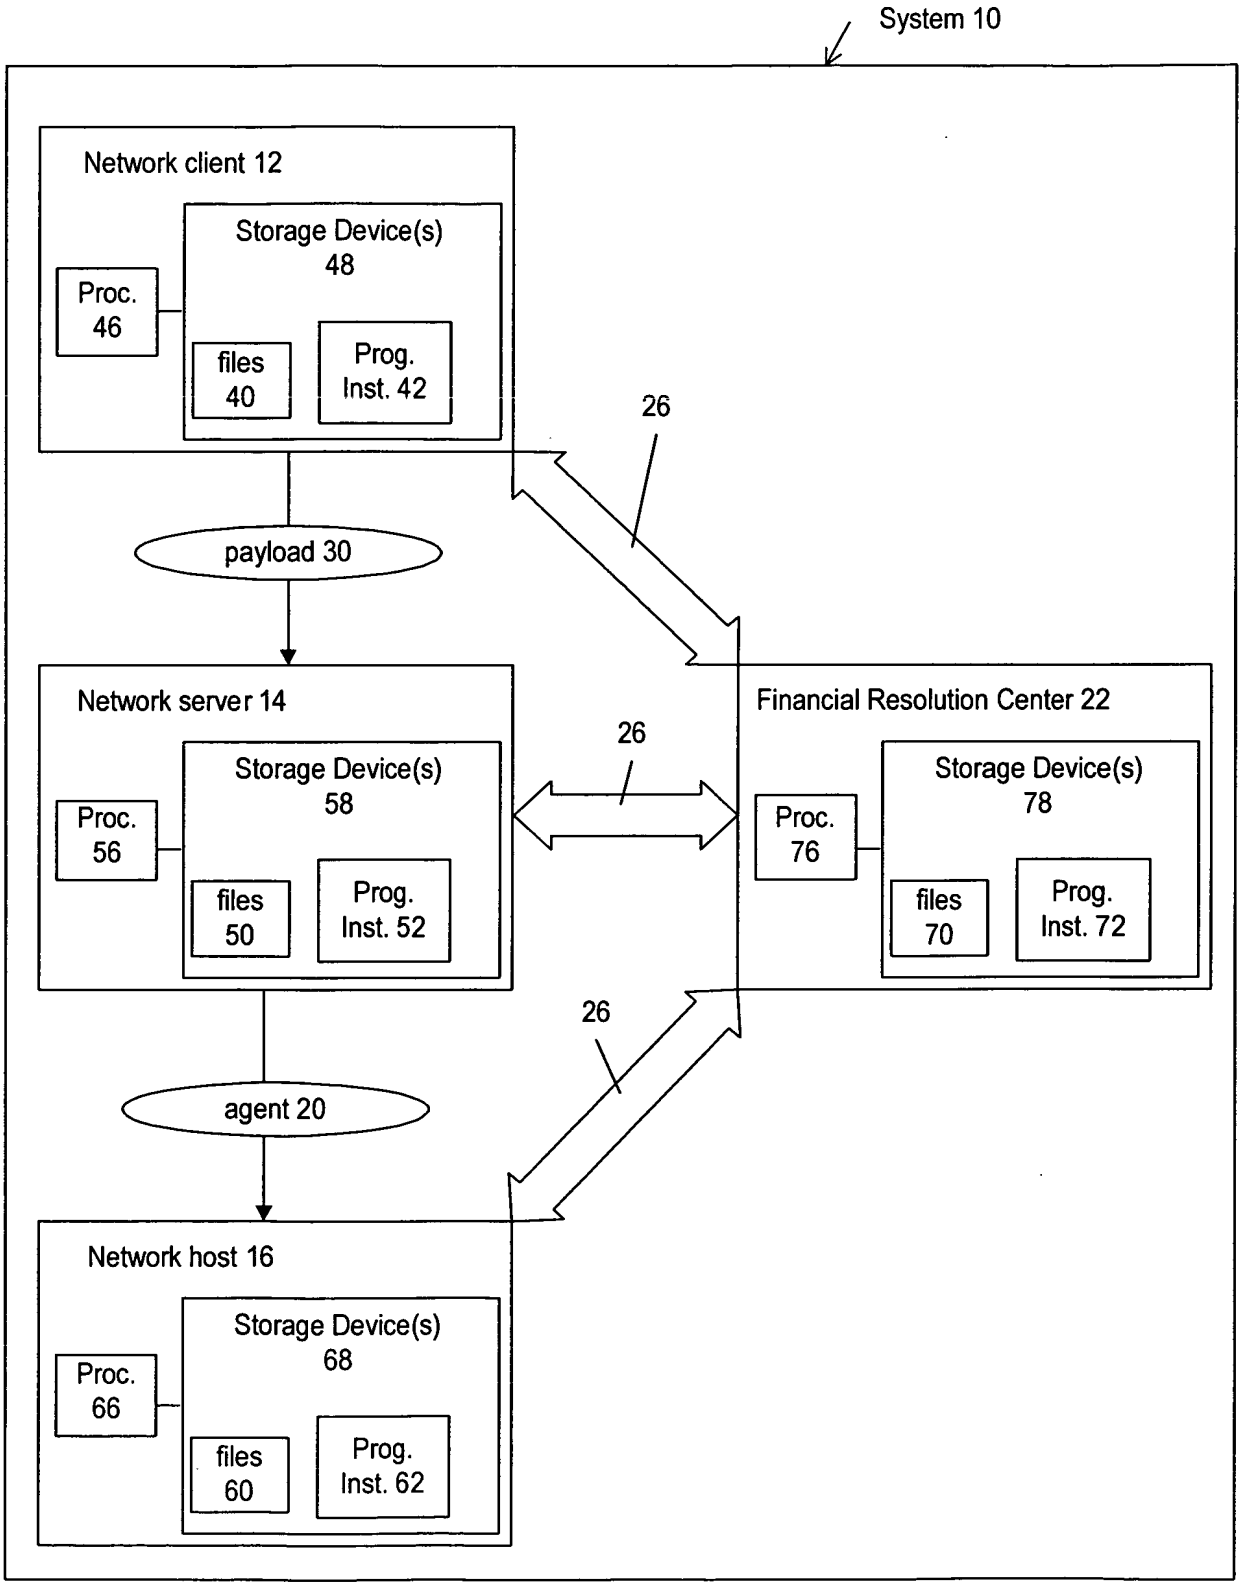

FIG. 1

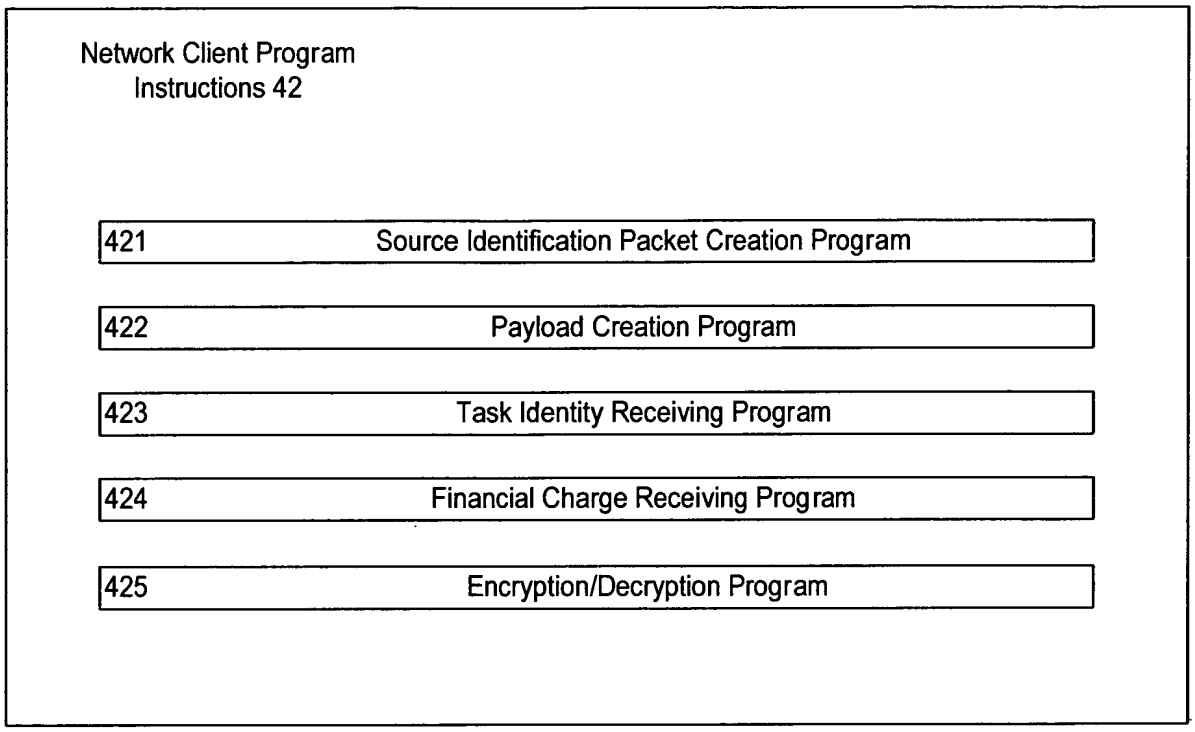
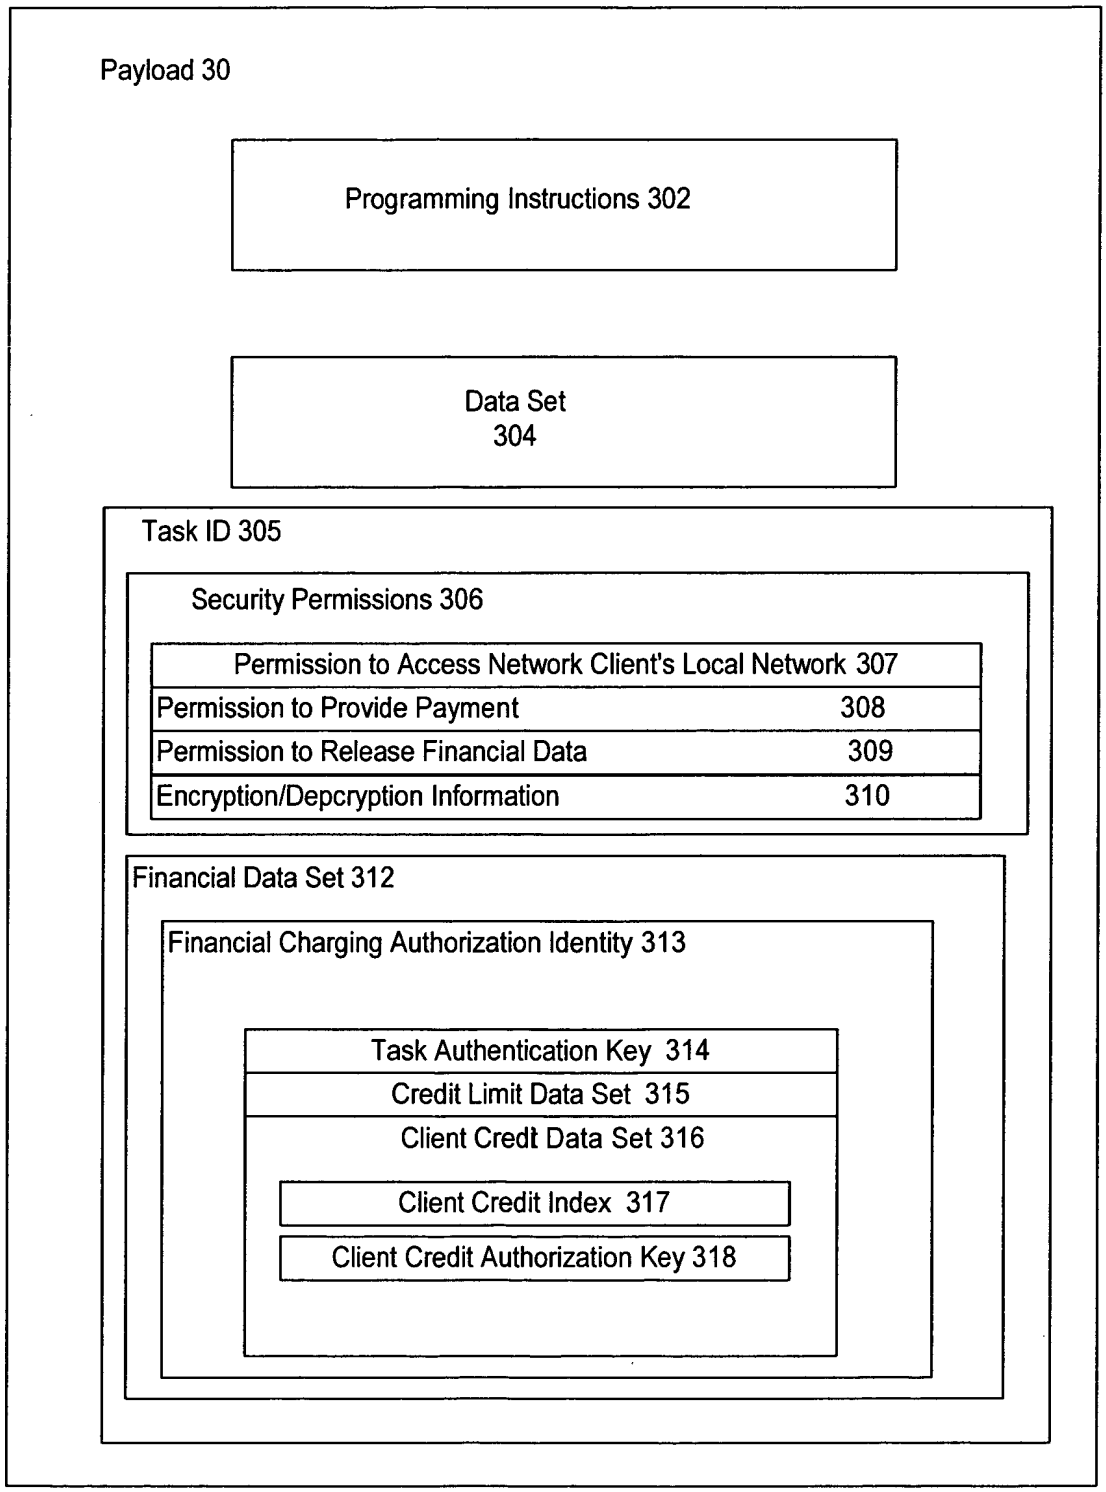


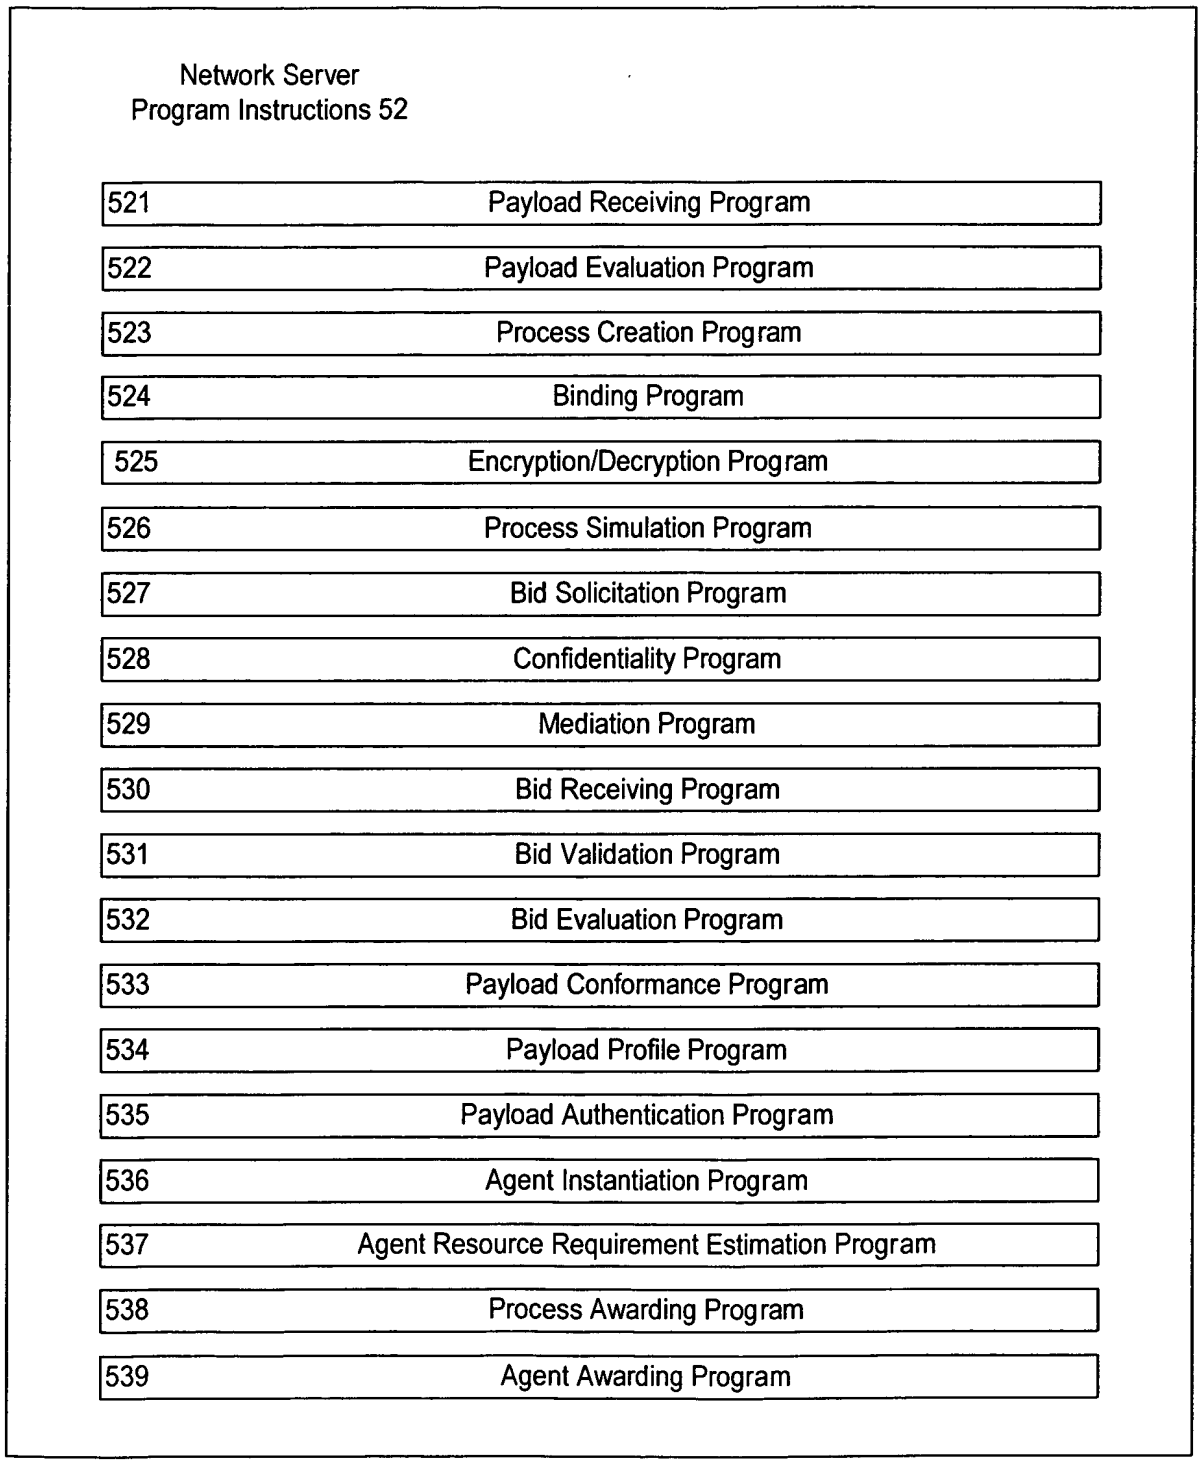
Network Client Program
Instructions 42
421
Source Identification Packet Creation Program
422
Payload Creation Program
423
Task Identity Receiving Program
424
Financial Charge Receiving Program
425
Encryption/Decryption Program

FIG. 2



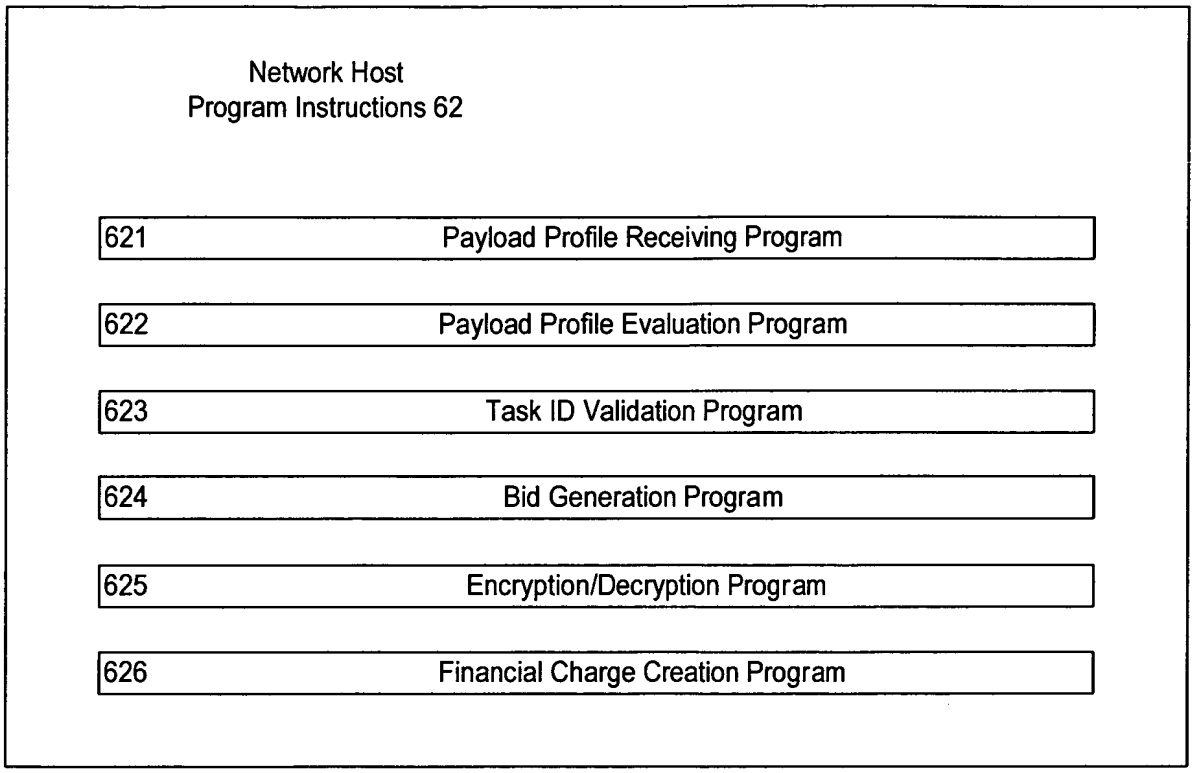
Payload 30
Programming Instructions 302
Data Set
304
Task ID 305
Security Permissions 306
Permission to Access Network Client's Local Network 307
Permission to Provide Payment 308
Permission to Release Financial Data 309
Encryption/Depcryption Information 310
Financial Data Set 312
Financial Charging Authorization Identity 313
Task Authentication Key 314
Credit Limit Data Set 315
Client Credt Data Set 316
Client Credit Index 317
Client Credit Authorization Key 318

FIG. 3



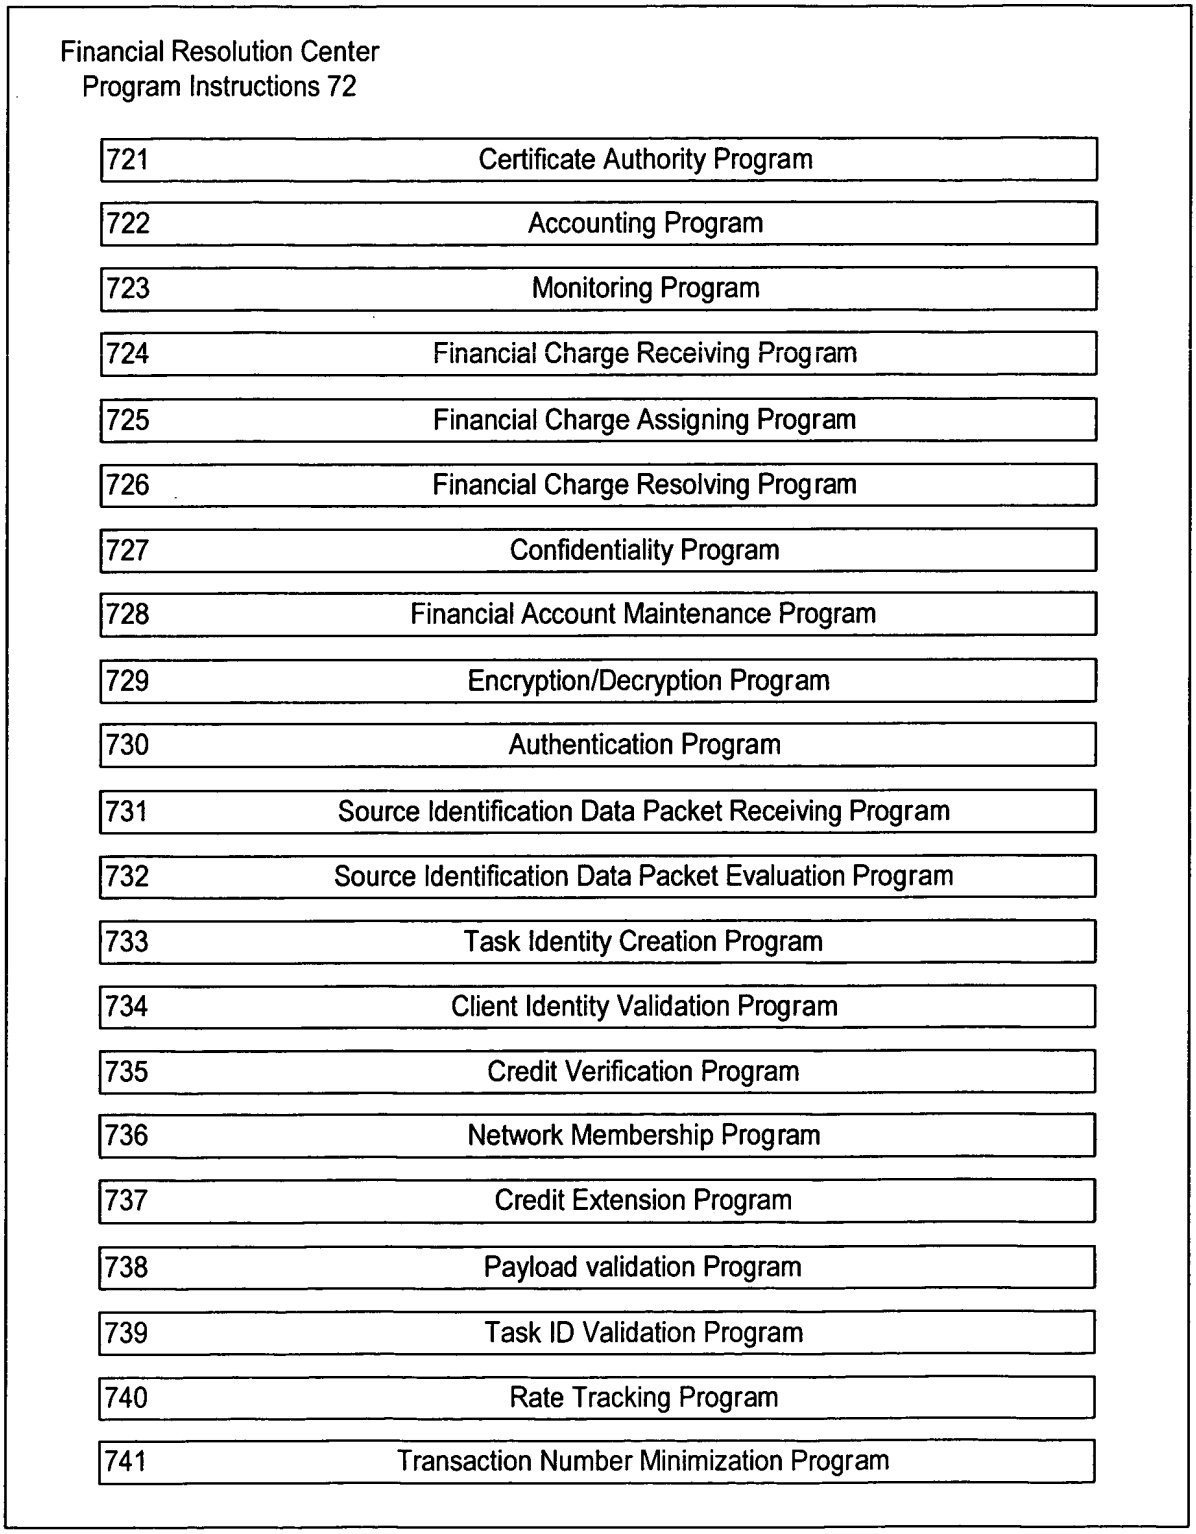
Network Server
Program Instructions 52
521 Payload Receiving Program
522 Payload Evaluation Program
523 Process Creation Program
524 Binding Program
525 Encryption/Decryption Program
526 Process Simulation Program
527 Bid Solicitation Program
528 Confidentiality Program
529 Mediation Program
530 Bid Receiving Program
531 Bid Validation Program
532 Bid Evaluation Program
533 Payload Conformance Program
534 Payload Profile Program
535 Payload Authentication Program
536 Agent Instantiation Program
537 Agent Resource Requirement Estimation Program
538 Process Awarding Program
539 Agent Awarding Program

FIG. 4



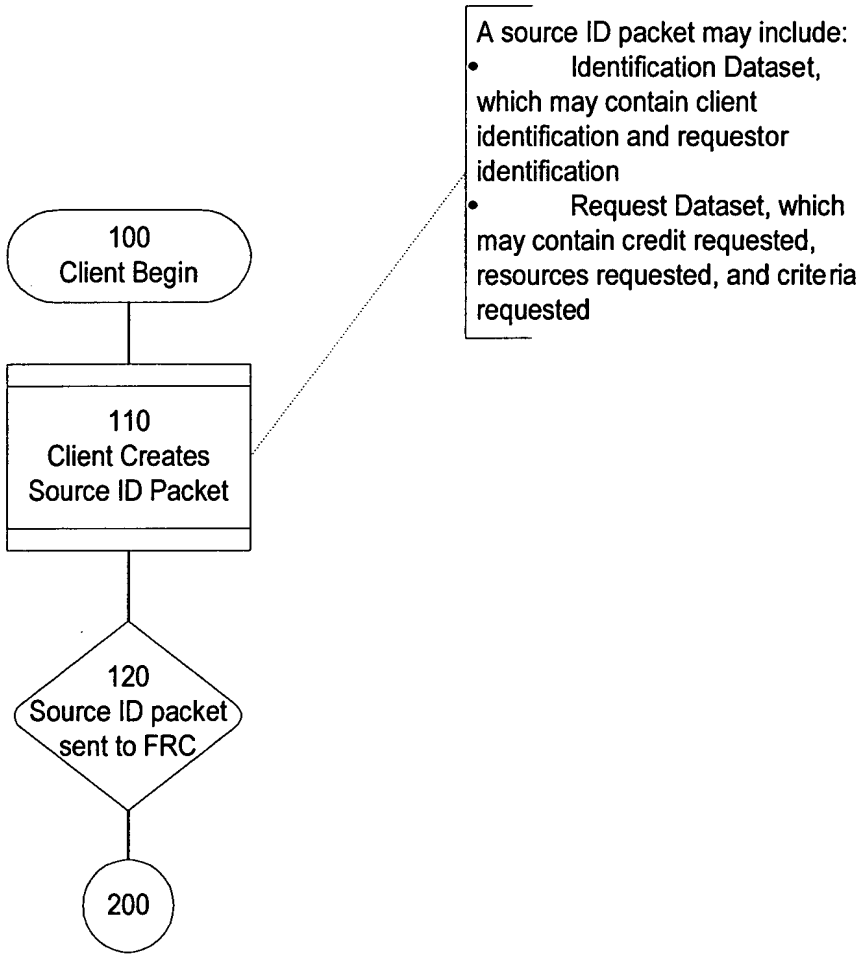
Network Host
Program Instructions 62
621
Payload Profile Receiving Program
622
Payload Profile Evaluation Program
623
Task ID Validation Program
624
Bid Generation Program
625
Encryption/Decryption Program
626
Financial Charge Creation Program

FIG. 5



Financial Resolution Center
Program Instructions 72
721 Certificate Authority Program
722 Accounting Program
723 Monitoring Program
724 Financial Charge Receiving Program
725 Financial Charge Assigning Program
726 Financial Charge Resolving Program
727 Confidentiality Program
728 Financial Account Maintenance Program
729 Encryption/Decryption Program
730 Authentication Program
731 Source Identification Data Packet Receiving Program
732 Source Identification Data Packet Evaluation Program
733 Task Identity Creation Program
734 Client Identity Validation Program
735 Credit Verification Program
736 Network Membership Program
737 Credit Extension Program
738 Payload validation Program
739 Task ID Validation Program
740 Rate Tracking Program
741 Transaction Number Minimization Program

FIG. 6



Task Identity Creation: Client side
